Putting the Funk in Functions to Get You Dancing

TYPE T STZ-D10T-G

- Easy-to-dance-to sound beats from a surprisingly compact body.
- "Auto Battle Mode" music selection/editing simulates intense dance competitions.
- Convenient functions for practicing dance let you adjust tempo to suit your practice tempo and allow you to manually set your desired cue point.
- Operates on AC or battery power.
- Drip-proof body for heavy-duty street use.

TYPE S STZ-D10S-L

- Easy-to-dance-to sound beats from a surprisingly compact body.
- "Auto Battle Mode" music selection/editing simulates intense dance competitions.
- Convenient functions for practicing dance let you adjust tempo to suit your practice tempo and allow you to manually set your desired cue point.
- Operates on AC or battery power.

TYPE Z STZ-D10Z-R

- 6.0-liter-size pumps out a total of 40 W high-power output with dynamic 2.1-channel sound for deeper dance grooves to fill large rehearsal spaces.
- "Auto Battle Mode" music selection/editing simulates intense dance competitions.
- Convenient functions for practicing dance let you adjust tempo to suit your practice tempo and allow you to manually set your desired cue point.
- Operates on AC or battery power.
- Drip-proof body for heavy-duty street use.

STEEZ AUDIO

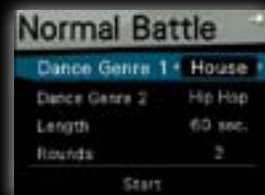

Auto Battle Mode*

TYPE T TYPE S TYPE Z

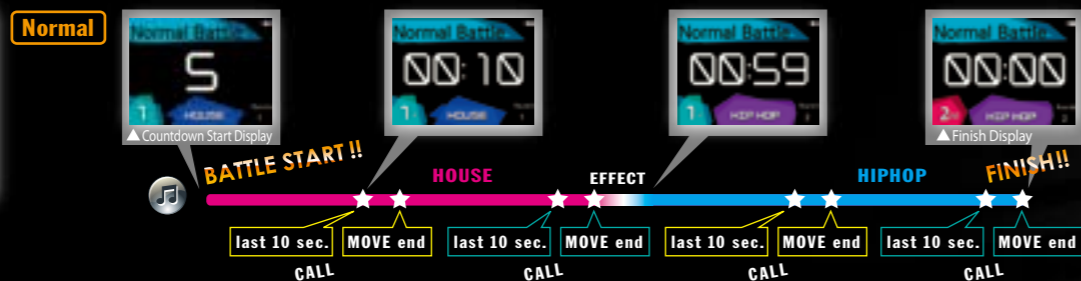

STEEZ AUDIO incorporates "Auto Battle Mode" — Pioneer's unique technology that makes it easy to battle at any time anywhere. Simply set match-up (playing) time or music genre, and the mode automatically selects and edits tunes for dance battle. Select "Circle**" for multi-dancer match-ups or "Normal" for one-on-one, two-on-two and team dance battles. STEEZ AUDIO covers what a DJ or timekeeper would normally do, and lets you smoothly switch music for battle by cutting in on and echoing tunes. It even prompts you with your choice of a voice or tone call signal 10 seconds before a change of dancers in a battle.

* Functions with music analyzed by MIXTRAX.

** TYPE S does not feature "Circle" function.

Normal Mode Setting Display

* Simulated images.

Various Functions for Dance Practice

TYPE T TYPE S TYPE Z

STEEZ AUDIO incorporates convenient functions for everyday dance practice, along with technology that Pioneer originally devised for professional DJ products.

TEMPO Control Setting Display

• TEMPO Control

"TEMPO Control" changes tune tempo as desired and is especially useful for starting dance practice slowly, then picking up the pace.

• 8-Beat Skip and Dance Cue

A new "8-Beat Skip" function lets you search ahead or back by eight beats, so starting or repeating choreography at any part of a tune is quick and easy. Use "Dance Cue" function to set a cue point, then press the "Cue" button to start dancing from that point of playback.

• More Fun with Dance Practice Features

"DJ Mix*" is for non-stop mix play of music selected according to dance genre by MIXTRAX** data analysis. "Rhythm Sequence" lets you practice dancing solely to rhythms of music.

* Functions with music analyzed by MIXTRAX.

** See page 10 for more details about MIXTRAX.

Dance Beat Sound to Move Your Body

The TYPE S and TYPE T are very light, compact, mobile forms that can be carried comfortably. "Dance Sound" lets you easily hear beat sound that is even more danceable. The TYPE Z sounds even more dynamic with deeper bass and beats for dance.

Tough, Dual Powered

TYPE T TYPE Z

Compatibility with AC and battery power provides flexibility to practice dancing on the street or anywhere else, too. Drip-proof protection from rain ensures durability for outdoor performance.

TAISUKE (ALL AREA)

STEEZ PORTABLE

Great music has never been easier to move to, with this sensational new STEEZ PORTABLE player pumping out selections for you to dance to. "Non-Stop MIX*" makes auto beat mixing sound as seamless as if a DJ is with you. While automatically adding effects, the player fades music in/out using various mix patterns, synchronizing your music's melodies and beats. It automatically selects tracks with similar tempos and moods. "TEMPO Control" lets you modify the music's pace as desired. A capacitance touch panel keeps control smooth all the way. It's easy to add a favorite tune to a playlist with one push of the "Mark" button, and connecting STEEZ PORTABLE to STEEZ AUDIO makes it even more convenient for you and a dance buddy to practice together.

* Approximately 10 hours of playback capability.

NSP-C10P-K

STEEZ HEADPHONES

STEEZ HEADPHONES are heavy on the bass yet keep every sound clear — perfect for getting into dance beats in high gear. Switch between green and red ear pads according to your style at the moment.

Ear pads included

SE-D10M-W

FISHBOY (GRONZO)

MIXTRAX

Pioneer proudly presents MIXTRAX — an original, easy-to-use PC application for STEEZ AUDIO and STEEZ PORTABLE players that integrates DJ-style "TEMPO Control", mixing and track making functions, plus Pioneer's technological expertise in music analysis algorithms. Also, MIXTRAX by itself lets you enjoy simple DJ-style Non Stop Mixing and track making functions. To enjoy even more of the fun, take out your favorite music files in a USB device and plug in to your friend's STEEZ AUDIO unit. This way, you get to dance to more music with friends by way of Non-Stop Mix play, dance practice, and other functions.
